Software Engineering Technology student specializing in Artificial Intelligence, with hands-on experience in software development, testing, debugging, data analysis, and technical documentation. Proficient in Java, JavaScript, SQL, C#, and Python, with a solid understanding of the Software Development Life Cycle (SDLC), object-oriented design, and Agile/Scrum development. Strong communicator with experience analyzing requirements, collaborating with teams, and explaining technical concepts to clients, teammates, and learners.

Professional Summary:

- Applied experience across the full Software Development Life Cycle (SDLC), including requirements analysis, UML modeling, technical documentation, software testing, and debugging within Agile/Scrum teams
- Strong foundation in object-oriented programming (Java, C#), JavaScript, and relational databases (SQL)
- Experience analyzing and organizing data using Python and Pandas, including descriptive statistics, dataset exploration, and data visualization
- Built and maintained 50+ responsive websites and front-end applications using HTML, CSS, JavaScript, and React
- Skilled with: Java, JavaScript, SQL, Python, C#, HTML, CSS, React / React Native, PHP
- Experience with tools: Git, GitHub, Jira, Visual Studio Code, Linux, Microsoft Office (Word, Excel, PowerPoint, Outlook, Visio)
- Strong soft skills in communication, teamwork, adaptability, and problem-solving, developed through client-facing projects and Agile/Scrum collaboration
- Bilingual: Spanish (Native), English (Professional Working Proficiency)

Key Skills:

Java & Object-Oriented Programming	SQL & Relational Databases	Version Control (Git, GitHub)
Software Testing & Debugging	Linux / Unix Systems	Python, Pandas & Data Analysis
JavaScript, HTML & CSS	SDLC & Agile / Scrum (Jira)	Technical Documentation

Education:

Software Engineering Technology - Artificial Intelligence (Co-op) Advanced Diploma 2026 - Present
Centennial College, Toronto, ON | Expected Graduation: 2028

Courses: Database Design & SQL (COMP122) | Web Application Development | Software Engineering | Software Fundamentals | Linux/Unix Systems (COMP301) | AI Models Design

Technology in Information Systems Analysis & Development, Diploma 2021 - 2023
SENA (National Service of Learning), Bucaramanga, Colombia

Select Projects:

Sistema_de_Ventas - Java, SQL (January 2023)

- Designed and implemented an object-oriented sales system in Java integrated with a SQL database, retrieving and organizing inventory and customer data to improve inventory accuracy by 30%.

Delivery_App_React - React Native, Tailwind CSS (March 2023)

- Built and tested a delivery application with a redesigned UI/UX and real-time updates, resulting in 20% faster user navigation.

Inventra - AI Inventory Management System (2026)

- Collaborated in a Scrum team using Jira to analyze software requirements and create UML diagrams and technical documentation in Microsoft Visio for an AI-supported inventory system with stock prediction, low-stock alerts, and supplier management.

ML_Python_Cancer_Detection - Python, Jupyter Notebook (October 2023)

- Developed a machine learning model to detect breast cancer, reducing false positives by 15%.

Experience:

Content Creator and Private Tutor August 2012 - Present

YouTube (@kristyriano) & TikTok (@kristynataliariano) – Remote

- Created 40+ educational tutorials on software development, Python, React Native, and web development, growing YouTube and TikTok to 15K+ followers and 260K+ views.
- Simplified technical concepts for learners through hands-on examples and private tutoring.

Freelance Web Developer January 2022 - September 2024

Moned LLC, Florida, USA (Remote)

- Built and maintained 50+ responsive websites using HTML, CSS, JavaScript, and WordPress, and developed applications with React Native.
- Tested, debugged, and troubleshot applications across browsers and devices to maintain consistent functionality and performance.
- Translated client business requirements into functional web and e-commerce solutions.
- Managed projects independently in a remote environment, documenting project progress and communicating technical updates directly with clients.

Other Experience:

Digital Operations Manager January 2018 - December 2021

Ecolodge La Esquina Lejana, Palomino, Colombia

- Increased direct bookings by 25% and website traffic by 40% through SEO, social media, and online sales optimization.
- Led digital transformation initiatives supporting operations, customer experience, and business growth.

Community Engagement:

Ambassador (Volunteer) January 2023 - 2024

Women Techmakers by Google – Bucaramanga, Colombia

- Organized and led tech empowerment events and mentored women in technology, reaching 200+ women.
